### CHIRP CONTOUR

Professional grade relief from home

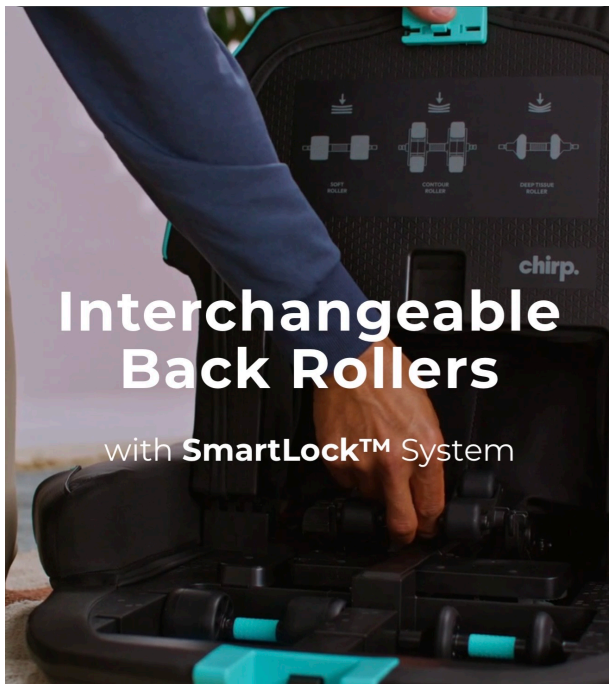

## Take a Closer Look

The Contour is simple by design—but behind that simplicity is years of research, testing, and smart engineering. Every feature works so seamlessly, you'll barely notice them—just the relief they deliver.

Contour automatically adjusts the back roller height and pressure based on your height, ensuring personalized lower back support for both shorter and taller users.

## Interchangeable Back Rollers

with **SmartLock™** System

BackTrack™ Technology

## Adaptive Height Adjustments

Contour automatically adjusts the back roller height and pressure based on your height, ensuring personalized lower back support for both shorter and taller users.

## Tech Specs

### EASY STORAGE

Weight: 22 lbs. / 10kg (accessories included)

Height: 43 in / 110 cm (seat to headrest)

Width: 22 in / 57 cm (arm to arm)

Depth: 7 in / 18cm (floor to the top of neck rollers)

### USER PROFILES

Contour supports two programmable user profiles, which automatically adjust to saved preferences for a consistent, personalized experience every time the device is used.

### QUALITY MATERIALS

Constructed with premium, durable materials selected for comfort, longevity, and performance, ensuring reliable daily use without compromising on feel or function.

### HEAT SETTINGS

The heat therapy function is integrated right into the cloud-soft fabric around the rollers, and offers two levels of warmth to optimize your muscle relaxation.

### HEIGHT & WEIGHT LIMITS

Fits heights 5' to 6'5". Adjust the neck roller position to suit your height. Supports users up to 250 lbs (113 kg). Use above this limit may compromise device performance.
